YEAR 4 · DECIMALS

Placing Decimals on Number Lines

Practise placing and reading decimals on numbered lines.

Name: _____ **Date:** _____

Remember: Look at the numbers at each end of the line. The equal spaces show equal steps.

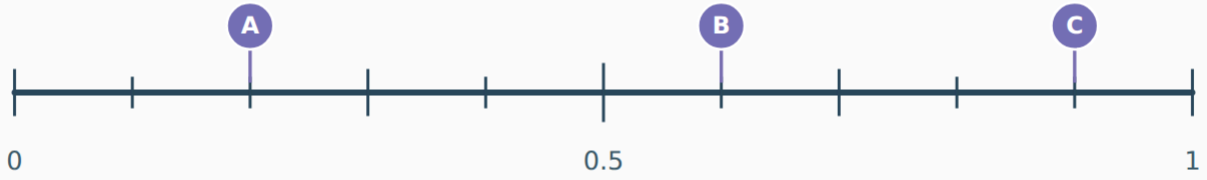
1 Place the decimals

Mark each decimal with a dot on the number line below.

Plot: **0.2** **0.6** **0.9**

2 Read the marked points

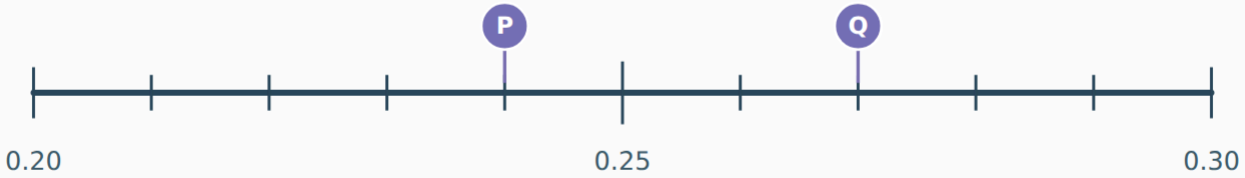
Each small step is one tenth. Write the decimal for each point.



A = _____ **B =** _____ **C =** _____

3 Look more closely

This line is zoomed in. Each small step is one hundredth. Write the decimal for P and Q.



P = _____ **Q =** _____

How many small steps are there from 0.20 to 0.30? _____
