FRACTIONS • YEAR 6

Converting Between Improper and Mixed Numbers

Name _____ **Date** _____

YOUR TASK Convert each number as directed. Write your answer on the line and use the space below to show your working.

A Improper fractions to mixed numbers

Convert each improper fraction.

1. $\frac{7}{3}$ = _____
   Working _____

2. $\frac{11}{4}$ = _____
   Working _____

3. $\frac{17}{5}$ = _____
   Working _____

4. $\frac{23}{6}$ = _____
   Working _____

5. $\frac{29}{8}$ = _____
   Working _____

6. $\frac{37}{9}$ = _____
   Working _____

B Mixed numbers to improper fractions

Convert each mixed number.

7. $2\frac{1}{4}$ = _____
   Working _____

8. $3\frac{2}{5}$ = _____
   Working _____

9. $4\frac{3}{7}$ = _____
   Working _____

10. $5\frac{5}{6}$ = _____
    Working _____

11. $6\frac{3}{8}$ = _____
    Working _____

12. $7\frac{4}{9}$ = _____
    Working _____

Check your answers For a mixed number, the numerator of the fraction part should be smaller than its denominator.
