MATHS · YEAR 2

# Arrays and Division

**Name** _____ **Date** _____

**Use the arrays to make equal groups. Draw circles to show your thinking.**

## 1 Find the number of groups

Circle each row of 3. How many groups are there?

There are _____ groups of 3.

**15 ÷ 3 =** _____

## 2 Find how many in each group

Share the 12 counters equally into 4 groups. Draw a loop around each group.

Each group has _____ counters.

**12 ÷ 4 =** _____

## 3 Draw an array to solve the problem

18 counters are shared equally between 3 plates. Draw an array of 18 counters, then circle each plate's share.

**Each plate gets** _____ **counters.** **18 ÷ 3 =** _____

☐ **I checked that my groups are equal.**
