YEAR 5 • GEOMETRY

Measuring and Drawing Angles

Use a protractor to measure and draw angles accurately.

Name: _____ Date: _____

1 Measure the angles

Place the centre of your protractor on each vertex. Measure each angle and write your measurement.

1 Measure this angle

Measurement: _____ °

2 Measure this angle

Measurement: _____ °

3 Measure this angle

Measurement: _____ °

4 Measure this angle

Measurement: _____ °

2 Draw the angles

Use the ray shown as one arm. Draw a second arm from the vertex to make each angle.

a Draw 35°

b Draw 90°

c Draw 125°

Take care to line up the protractor’s centre and baseline.
