MATHS • MEASUREMENT • YEAR 2

Weighing Objects in Grams and Kilograms

Name _____ **Date** _____

1. Look at each item and estimate its weight.
2. Weigh the item using classroom scales.
3. Write each weight and circle g or kg.

g **Grams (g)**
Use for lighter objects.

kg **Kilograms (kg)**
Use for heavier objects.

Estimate, then weigh

Write a number and circle a unit in each box.

Item	My estimate Number and unit	On the scales Number and unit
Pencil	_____ g kg	_____ g kg
Apple	_____ g kg	_____ g kg
Reading book	_____ g kg	_____ g kg
Full water bottle	_____ g kg	_____ g kg
School bag	_____ g kg	_____ g kg
Box of books	_____ g kg	_____ g kg
My own item _____	_____ g kg	_____ g kg

Look back at your results

Which item was heaviest? _____

Which item was lightest? _____

For my heaviest item, I used: g kg

My estimate was: close different
